# Global Wrist Dive Computers Market Data Survey Report 2013-2025

## Summary

A wrist dive computer is the one that can take depth and time information and applies it to a decompression model to track the dissolved nitrogen in your wrist tissue during a dive. Your computer continuously tells you how much dive time you safely have remaining. Your computer combines a depth gauge, timer and sometimes a submersible pressure gauge (SPG) into a single, useful instrument. This is immensely useful when it comes to avoiding decompression sickness.

The global Wrist Dive Computers market will reach xxx Million USD in 2019 with CAGR xx% 2019-2025. The main contents of the report including:

Global market size and forecast

Regional market size, production data and export & import

Key manufacturers profile, products & services, sales data of business

Global market size by Major Application

Global market size by Major Type

Key manufacturers are included based on company profile, sales data and product specifications etc.:

Oceanic

Aeris

Cressi

Mares

Scubapro

Sherwood

Suunto

Hollis

Liquivision

Shearwater Research

Major applications as follows:

Military

Civilian

Major Type as follows:

OLED Color Display

Colorless Display

Regional market size, production data and export & import:

Asia-Pacific

North America

Europe

South America

Middle East & Africa
