# Global Wrist Dive Computers Market Data List by Segment 2015-2022

## Snapshot

A wrist dive computer is the one that can take depth and time information and applies it to a decompression model to track the dissolved nitrogen in your wrist tissue during a dive. Your computer continuously tells you how much dive time you safely have remaining. Your computer combines a depth gauge, timer and sometimes a submersible pressure gauge (SPG) into a single, useful instrument. This is immensely useful when it comes to avoiding decompression sickness.

This report covers Wrist Dive Computers basic market data by segment:

1 by Product

2 by End-User

3 by Company

4 by Region

5 by Channel

6 by Price

This report can also be customized according to further requirements.
